Education

2019 – 2023	**Bachelor. Higher School of Economics.** Faculty of Computer Science. Applied Mathematics and Informatics. Specialization: Machine learning and applications.
2016 – 2019	**High school. Academic Lyceum of Westminster International University in Tashkent**

Employment History

2020 – 2021	**Developer trainee.** Kaspersky lab. C++ developer. Helped to maintain security product for hypervisors by fixing bugs and writing tests.
2017 – 2019	**Competitive programming tutor.** Competitive programming club «Odina Placement». For three years coached students in algorithms and data structures.

Skills

Languages	**English (102 TOEFL), Russian (native), Uzbek.**
Programming Languages	**C++, Python, Haskell, LaTeX, …** Contributed to open source project FCApy by implementing three algorithms.
ML	**PyTorch, sklearn, Machine learning basics.** Developed neural networks for text classification, image classification, sound processing. Have strong knowledge in time series processing and statistical methods. In course projects developed neural networks that classifies law texts and model that predicts mood based on EEG.
Web	**Html, css, JavaScript, NodeJS, aiohttp.** Developed several back-end applications, e.g., server for animal adoption (authorization, mongoDB, REST api), web-service for code plagiarism checking.
Misc.	**Teaching experience, algorithms and data structures.**

Miscellaneous Experience

University

GPA	9.35/10.
Percentile	Top 5.9% of a program.

Miscellaneous Experience (continued)

Olympiads

2019   **ICPC**, Quarterfinals.

2018 – 2019   **International Olympiad in Informatics**, Participated in the national team of Uzbekistan for two years.

2019   **Olympiads HSE, SpbU, MISIS**, Second degrees.

Asia-Pacific Informatics Olympiad, Bronze.

Codeforces

Title   **Master**, Link.
